***VERTICAL BRIDGES: POEMS AND PHOTOGRAPHS OF CITY STEPS***

“Under Corso’s nimble juggling of words and images, Pittsburgh staircases become a series of paths leading elsewhere—from China to Norway, from Italy back to the Three Rivers. These narratives construct a fascinating ecology of urban spaces, emphasizing the delicate lives and quotidian strength of those who climb up and down: workers, immigrants, children, lovers. In each direction, these poetic flights offer an all-encompassing view.” —LAURA E. RUBERTO
